Question: The net of a cube-shaped dice is given alongside. If a dice is made by folding this net, which of the following shapes will it definitely not resemble?

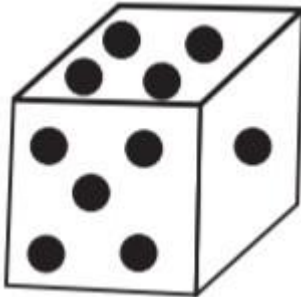

Options:

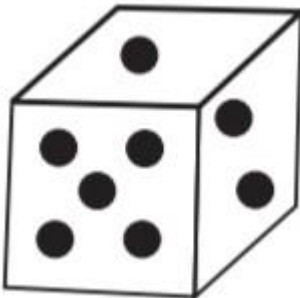

Option A:

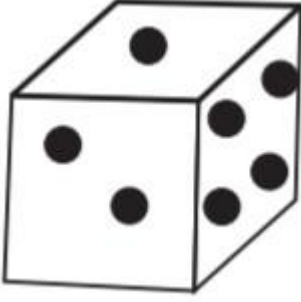

Option B:

Option C:

Option D:

Correct Answer: Option (D)

Explanation:

Step 1: Identify opposite faces

By folding the net, the opposite faces of the cube can be determined: The face with 5 dots is opposite the face with 3 dots. The face with 6 dots is opposite the face with $\mathbf{4}$ dots. The face with 2 dots is opposite the face with 1 dot.

Step 2: Analyze the given options

A valid cube orientation cannot show two opposite faces simultaneously.

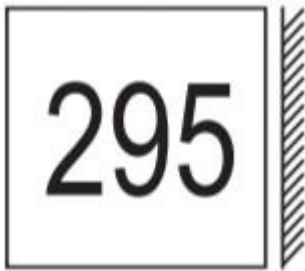

Option (A) shows faces with 1, 2, and 5 dots. The 1 and 2 dot faces are opposites, so this orientation is impossible.

Option (B) shows faces with 4, 6, and 5 dots. The 4 and 6 dot faces are opposites, so this orientation is impossible.

Option (C) shows faces with 1, 3, and 5 dots. The 3 and 5 dot faces are opposites, so this orientation is impossible.

Option (D) shows faces with 1, 4, and 5 dots. These are all adjacent faces in the net, so this orientation is possible.

Question: खालील प्रश्नाकृतीची आरशातील प्रतिमा कशी दिसेल ते पर्यायी उत्तर आकृत्यांमधून निश्चित करा.

Options:

Option A:

Option B:

Option C:

Option D:

Correct Answer: Option (C)

Explanation: आरशातील प्रतिमेमध्ये, वस्तूचा डावा भाग उजवीकडे आणि उजवा भाग डावीकडे दिसतो, तर वरचा आणि खालचा भाग तसाच राहतो. जेव्हा '295' ही संख्या आरशात पाहिली जाते, तेव्हा प्रत्येक अंकाची आरशातील प्रतिमा तयार होते आणि संपूर्ण संख्येचा क्रम उलट होतो.

'5' ची आरशातील प्रतिमा 'S' सारखी दिसते.

'9' ची आरशातील प्रतिमा 'e' सारखी दिसते.

'2' ची आरशातील प्रतिमा '2' सारखी दिसते.

त्यामुळे, '295' ची आरशातील प्रतिमा 'S e 2' अशी दिसेल. पर्यायी उत्तरांमधील पर्याय (3) हे योग्य उत्तर आहे.
